flow 3.0 COLLECTION
Made in Italy

united*separable* propone un sistema di abbigliamento femminile basato su modularità e intercambiabilità: più combinazioni, meno materiali e risorse. Ogni capo è pensato per durare nel tempo, con un equilibrio tra funzionalità e forma che si adatta alla vita quotidiana.

Fuori dai ritmi stagionali della moda, il progetto segue una logica di continuità: i moduli restano attuali nel tempo, si integrano tra loro e si trasformano secondo le esigenze. È un approccio che nasce anche da un'attenzione concreta agli impatti e da come cambiano le aspettative di chi veste.

La collezione riflette la varietà e la complessità del quotidiano, partendo dalla mia esperienza personale. Ogni proposta è un invito a comporre in modi diversi, tra unione e separazione, tessuti, colori e disegni.

united*separable* is a women's clothing system built around modularity and interchangeability: more possibilities with less material and fewer resources. Each piece is made to last, balancing function and form to suit everyday life.

The project steps away from traditional fashion seasons, following a continuous logic. Garments are designed to stay relevant over time, adapting and evolving as needed. This approach reflects a practical commitment to sustainability and a response to changing expectations. The collection draws on my own experience and the shifting rhythms of daily life. Each piece invites new combinations—playing with unity and separation through fabrics, colours, and patterns.
